

# Professional Enrichment Course

University of Pittsburgh School of Medicine

Office of Medical Education

## Basic Medical Spanish - Unofficial PEC

<b>Objectives:</b>	<ul style="list-style-type: none"> <li>To introduce students to basic Spanish language pronunciation and vocabulary.</li> <li>To develop basic conversation skills in Spanish.</li> <li>To learn basic Spanish medical vocabulary.</li> <li>To learn about the Hispanic communities of Pittsburgh and beyond and the specific challenges they face.</li> </ul>
<b>Brief Description:</b>	This curriculum introduces beginner medical Spanish learners to foundational skills necessary for clinical communication. The goal is to equip students with practical language skills, emphasizing pronunciation, fluency, and comprehension. By the end of this course, students will be prepared to attend advanced sessions with native Spanish speaking patients. They will interact at a basic level of Spanish and listen for comprehension during medical interviews.
